INTERNSHIP EXPERIENCE

Corporate Development Intern, **Scanifly**, New York, NY (s/ware developer for drone measurement of buildings for solar installations)

January 2021

- Worked alongside CEO on setting foundation for scaling of business. This included aiding in the creation of communication protocols, employee values agreement, first mass marketing project and community service program.
- Collected data of hundreds of different solar companies to aid in the creation of geofencing for the company's first marketing campaign
- Presented regular updates about each of these projects to the CEO and discussed the development of my communication, quantitative, team working and analytical skills through the medium of each of these tasks.

Operational Intern, **Meridian Rapid Defense Group**, Pasadena, CA (manufacturer of Safety Act certified mobile anti-vehicle barriers) June 2021 – January 2022

- Worked with mentor to collect and present large data sets to the company including translating them into graphs, Pivot Tables, and succinct summaries
- Gained exposure to many different facets of the company such as the marketing team, the sales team, and the field specialists the company had through various projects.
- Spoke regularly with both the CEO and President who created and assigned the projects completed over the internship.

Research Assistant**, Poole College of Management**, Remote, NCSU May – August 2021

- Worked with Dr Joseph Brazel, a University Faculty Scholar in the Accounting Department, in editing many articles to be published in academic and business journals on fraud detection and other topics.
- Attention to detail was essential as I served as the last point of external review on articles as long as 50 or more pages.
- My edits were made through a shared document which Dr Brazel would then finalize before sending the document to be published in an academic journal or business journal, such as *Forbes*.
